

South Carolina Department of Health
and Environmental Control

Preliminary Site Inspection Request For Proposed Agricultural Facilities

This request form should be filled out completely and submitted to the local SC DHEC EQC district office. Please see the back of this form for a complete listing of the district offices and the agricultural contacts. A representative will contact you as soon as possible to arrange an appointment. Two tax maps of the site and the surrounding 1320 foot radius of properties must be obtained prior to this meeting. The following items should be identified on these tax maps; adjacent land usage (residential, cropland, timberland, business, etc...), location of inhabited dwellings and wells, location of streams and ponds, location of ditches, and right-of-ways. This information should be labeled on the tax maps for all property within 1320 feet of the proposed facility's property line. The labeled tax maps must be submitted with this form prior to the meeting. The representative will review these maps and walk the proposed site to determine general suitability for a no-discharge agricultural manure treatment/storage system.

Name: _____

Address: _____

City: _____ State: _____ Zip Code: _____

Phone Number: (Day) _____ (Evening) _____

Type of Facility: _____ County: _____

Directions to Farm:

Owner's Signature _____

Please note that the Department provides preliminary site inspections as a service to the regulated community. A preliminary site approval is not a commitment by the Department to issue a permit since the precise location of the proposed facilities, and exact setbacks, detailed waste management plans are not known at the time of preliminary inspection. Upon receipt of the complete application package, the Department will make a final determination on permit issuance.
